All proceeds from the weekend go to the Brighter Days Foundation supporting our two chosen children's charities:

DEBRA

DEBRA Australia offers advocacy, financial support, emotional support and networking opportunities to families who are living with EB. DEBRA Australia also uses donations to fund local and international research into a cure for EB. Our aim is to work for a life free of pain.

In brief DEBRA is:

- Funded solely by voluntary donations.
- Investigating and implementing ways to help sufferers in their daily lives.
- Educating the general public and health care professionals about EB.
- Raising money for vital research into EB.

Put simply, EB is a rare disease whereby the skin blisters and peels at the slightest touch. This is why we call our EB children the 'butterfly children'; because their skin is said to be as fragile as a butterfly's wings. Living with EB has been likened to living with third degree burns. It is very painful, and sufferers must be bandaged every day with dressings to protect and medicate their wounds.

FOR MORE INFORMATION PLEASE GO TO: WWW.DEBRA.ORG.AU

SUDC

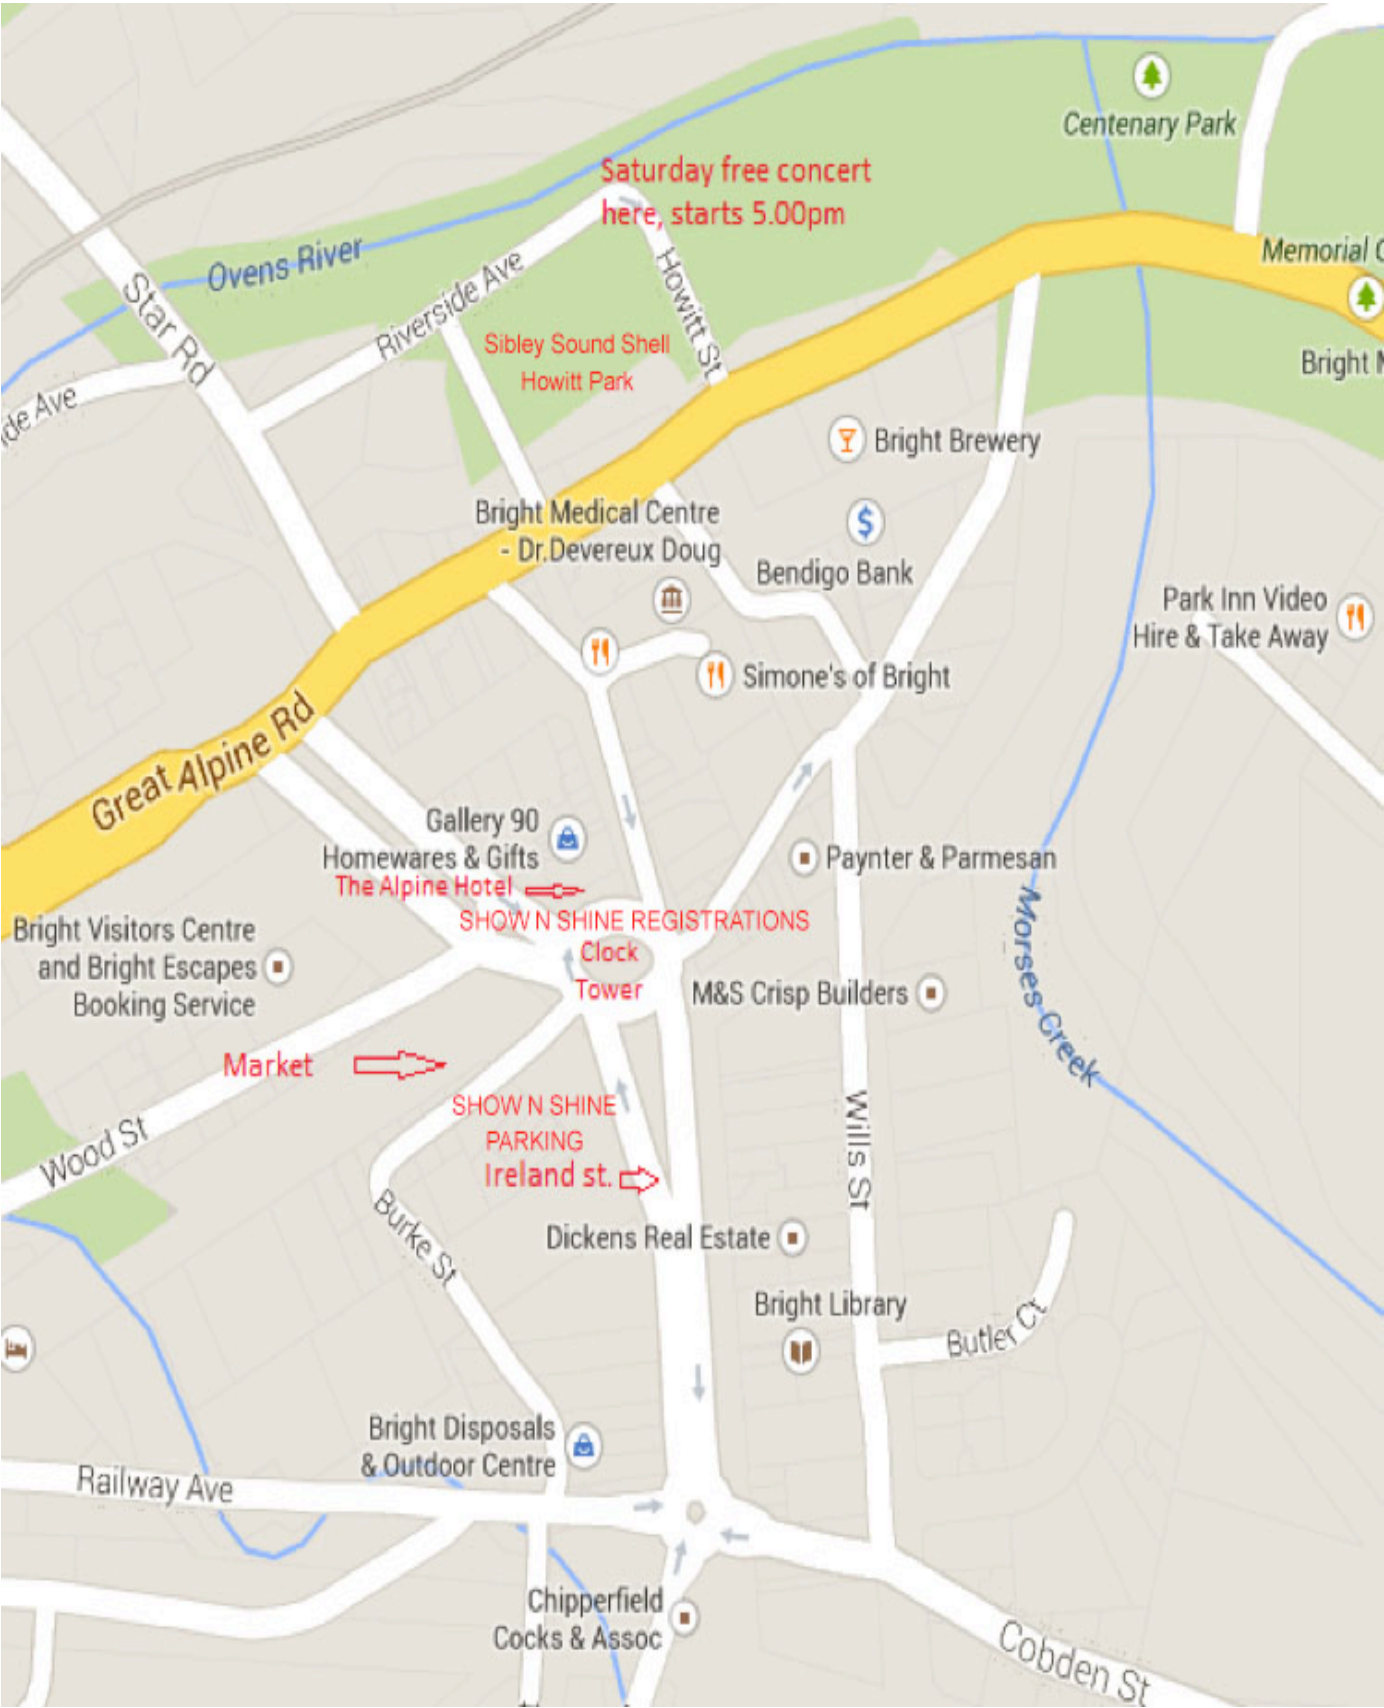

"Sudden Unexplained Death In Childhood (SUDC) is the sudden and unexpected death of a child over the age of 12 months, which remains unexplained after a thorough case investigation is conducted."

The **Cooper Trewin Memorial SUDC Research Fund** was established after the tragic passing of Cooper Trewin on the 6th of February 2010 aged 16 months for no known reason and is **supporting SIDS and Kids to fund advocacy and Australian research into the cause for sudden and unexplained death in children.**
