

## COVID-19 STATEMENT

The Brighter Days Foundation Committee remains optimistic and open-minded regarding the possibilities surrounding the 2021 Brighter Days Festival in the face of the uncertainty of COVID-19.

To all our sponsors, our volunteers, our performers, the many contractors, the thousands of Festival patrons and of course the loyal Bright tourism industry, we would like to emphasize that health and safety and reducing the spread of COVID-19 will remain at the forefront in all our decision making.

We are committed to keeping the Festival spirit alive – however what exactly that will look like remains unclear at this time. While we await the Victorian Government and Alpine Shire Council decisions in relation to the 2021 Festival, we are thrilled to have our major sponsors back on board for our 2021 Raffle. It is even more critical than ever to maintain support for our charities during this time.

The Brighter Days Festival Committee extends its support to the live music industry across Australia and to all those who have been severely impacted by this pandemic, as we work together to preserve the future of major festivals, events and cultural activities.
