

2022 FESTIVAL UPDATE

The Brighter Days Foundation Committee remains optimistic and we are working hard planning the 2022 Brighter Days Festival now that we are looking like reaching the vaccination targets that will allow events to open back up.

To all our sponsors, our volunteers, our performers, the many contractors, the thousands of Festival patrons and of course the loyal Bright tourism industry, we would like to emphasize that health and safety and a commitment to reduce the spread of COVID-19 will remain at the forefront in all our planning.

While we await the Victorian Government Public Event COVIDSafe Framework update, which will underpin our event approval, we are thrilled that we have our major sponsors back on board, and a couple of new sponsors for our 2022 Raffle. It is even more critical than ever to maintain support for our charities during this pandemic.

The Brighter Days Festival Committee extends its support to the live music industry across Australia and to all those who have been so severely impacted by this pandemic, as we work together to preserve the future of major festivals, events and cultural activities.
